

## **2008 Carménère**

*Rennie Vineyard*  
***Estate Grown Certified Organic Grapes***

Yes! A Carmenre from California; not Chile...  
As there is very little Carmenere planted in California, we'd be willing to bet you haven't tried a Californian Carmenere yet.

This wine will make you take notice. The bouquet is complex with black fruits, chocolate and coffee. A nice wine to drink now with ham, sausage, or a spicy lamb stew. Give it a try and go Californian!
