 - Alcohol: 13.5%; Total Acidity: 8.0 g/L
 - pH: 3.08; R.S.: 0.2%
 - Free sulfites at bottling: 26 parts per million. Total: 99 ppm
- ◆ Fewer than 300 cases produced

put in open top fermenters. After about 20 hours of skin contact the juice was pressed off and racked into barrels for fermentation. The wine was inoculated and fermentation continued until dryness. After approximately 3 months, the wine was racked into a tank, gently fined, and loosely filtered before bottling.

Pairing With Food

This wine is dry and yet its juicy, fresh, mouth-watering flavors making it a versatile match with many foods. Some ideas: BBQ chicken, wok-charred crisp vegetables, grilled fish with chutney, summer pastas, or cold shrimp with sweet-spicy cocktail sauces.

Why the name?

The 2013 harvest was our 18th consecutive production of a Malbec table wine from our Rennie Vineyard. However, it also marked our inaugural Malbec Rosé. Malbec is a purple grape with an inky dark color. Consequently to make our Rosé just right we had to remove the skins from the juice after they had spent just one night together. In French D'une Nuit loosely translates to a "**one-night stand.**"

Winemaker Notes

In our Rennie Vineyard we have three clones of Malbec: FPS#9 (Cot clone 180 from France), EV#595 (originated in Cahors), FPS#4 from Bordeaux. We chose the Cot clone, which we have the most experience with, for our first Malbec Rosé. After our standard, careful hand-harvesting, the grapes were gently crushed and
