Vintage

The vines date back to our 1989 planting. We harvested on Sep. 23rd and hand-picked as usual but selected only the very best clusters that had reached our flavor profile.

Winemaker Notes

The grapes were crushed directly to the press. The juice was gently squeezed from the press and pumped to a tank. A small amount of SO₂ was added to the tank and the juice cold settled for 24 hours. It was then racked to French oak cooperage and inoculated with Premier Cuvee and Cote de Blanc yeast strains. After 16 days the fermentation was completed and the wine was stirred every two weeks (sur-lie aged) to promote richness and stability in the wine. The Semillon was allowed to complete malolactic fermentation before another small addition of SO₂. After five months of aging the wines were racked back into a tank, settled, fined, and sterile filtered before bottling.

Pairing With Food
